Part 1 (in volume 42 [1]) presents some 980 reconstructions for Proto-Micronesian, Proto-Central Micronesian, and Proto-Western Micronesian. Part 2 in this issue gives reconstructions for two additional subgroups within Proto-Micronesian: Proto-Pohnpeic (PPON) and Proto-Chuukic PCk), and for the larger group that they comprise, Proto-Pohnpeic-Chuukic (PPC). A few putative loans are also identified, and a finder list for all reconstructions is provided.

LOANS

L1: CHK áchiyu 'a tree (*Ixora carolensis*)'; MRT ashiiyow; STW yaRiiyow; WOL gashiou 'a kind of tree (*Ixora casei*)'; PON ketiew 'sp. of tree (*Ixora casei*)'; PNG kalesu; Mrs kajdew 'a tree (*Ixora carolinensis*)'; KSR kalsru 'a kind of plant (Bender et al. 1984: 'a shrub with red flowers'). These appear to be loans, possibly from PAL kerdeu 'Ixora plant'.

L2: CHK amóneset 'a tree (*Messerschmidia argentea*)' (also CHK néét); PUL yamolehát 'tree heliotrope (*Messerschmidia argentea*)'; CRL amaleeset and CRN amaneeset 'sp. of tall tree found on sandy beaches'. This appears to be a loan within the Chuukic languages. Cf. PAL rirs 'tree heliotrope'. See also PMC *ceni, ceceni 'strand tree'.

L3: CHK anné 'a tree (*Cordia subcordata*)'; PUL yaané, yaaliúw, yaaliuwá-(n) 'a tree (*Cordia subcordata*), t. of'; CRL aliw and CRN anné 'a tree (*Cordia subcordata*)'; WOL galíwe 'a tree (*Cordia subcordata*)'. These forms seem to be loans. See also PCMC *kana, kai 'habit, tendency'.

L4: CHK ápuuch 'a tree (*Crataeva* sp.)'; MRT afiuush; PUL yáfiuR; CRL afiuush; CRN afiuuR; STW afiuuR; WOL yafiuushu, yefiuushu. These appear to be loans from YAP qabiich, qabyuch 'a type of tree with edible fruit'.

L5: CHK aroma, óroma 'Abutilon shrub'; MRT aroma 'Pipturus argenteus'; PUL yóroma 'a tree'; STW yaroma 'Pipturus argenteus'; WOL yaromaa 'Pipturus tree'; PCk *yaromaa; MOK ormo 'tree sp.'; PNG oroma 'Pipturus argenteus'; Mrs harm^wey 'Pipturus argenteus tree'. Possibly a loan from Chamorro *aroma* 'a spiny shrub'.

L6: CHK attu, áttu, kattu, káttu 'cat, housecat'; PUL kattu; CRL ghattu; CRN gattu; STW kattu; WOL ghaatuu. These are loans from CHM *katuu*, which is in turn a loan from Spanish. KIR (te)-katama is a loan from another, but not clear, source.

L7: CHK á-áni-pé 'fan' (lit. 'make wind blowing'), á-áni-péé-(w) 'f. him, beckon to her'; PUL yá-áni-pé 'to fan'; CRL áli-pé, alú-pé, alé-pé 'a f.', áli-pee-(w) (sic) 'to f. s.o.'; CRN há-áni-pé 'a hand f.'; WOL ga-ali-péé 'f., to wave', ga-ali-péé-(we) 'f. him'. Cf. PUA úlú-pau 'f.' CRN h instead of expected g and PUL and CRN n and CRL and WOL l instead of expected η suggest the PUL, CRL, CRN, and WOL forms are loans originally from CHK.

L8: CHK ásáap, ásáppi-(n) 'shuttle (of loom), s. of'; WOL gesaape; PUA kadape (sic). This appears to be a loanword, since we have PUA d instead of expected t.

L9: CHK eep, #eppi-(n) 'yam, y. of'; PUL yeep, yepi-n; WOL seep, sepa-(li). Presumably a loan from YAP *theap*. Cf. PMP *qubi (Blust 1984–85). See also PPC ?*kaapi 'yam'.

L10: CHK eyi-rejes 'a tree (*Pittosporum* sp.)'; PUL yayi-rejes, -rejese-(n) 'Pittosporum tree, t. of'. The PUL form appears to be a loan from CHK. Cf. PCk *yalle-p^wuta 'a tree (*Pittosporum*)'.

L11: CHK éwú-ni-yár 'whirlwind, waterspout, name of a storm god'; MRT awú-ni-yar 'whirlwind, tornado, rainbow'; PUL náawú-ni-yer, -ere-(n) (sic) 'waterspout, whirlwind, w. of'; CRL layú-li-yár 'tornado, whirlwind, waterspout'; STW nádiwú-ni-yár 'tornado'; WOL laú-li-are 'rainbow'; PON ey-ni-ar 'whirlwind, gust of wind containing rain'; YAP naenyøer 'tornado, waterspout'. This looks like a chain of loans, from PON through CHK without an initial *n and from PUL through YAP with one, showing a reinterpretation along the chain between CHK and PUL. Marek (1994:316) reconstructs PPC *auniari 'whirlwind', but it is questionable.

L12: CHK feeyis 'name of Fais Island, Western Carolines'; PUL faayis; WOL faisse. The CHK and PUL forms appear to be loans.

L13: CHK féiyiw, féiyewe-yi-rek 'name of Gaferut Island (West Fayu) in the Central Carolines'; PUL fayeeowa-y-rek (sic) 'name of Gaferut Island (West Fayu)'; CRL fayiéew 'name of Gaferut Island (West Fayu)'; WOL féiyewe 'name of a place in Woleai'. Looks like a chain of interdialect loans.

L14: CHK iyap 'name of Yap Islands'; PUL yaap; CRL yaap; WOL yaape; ULI eap; PON yap; Mrs yiyahab^w; KSR yep. These are clearly a progression of loans, with the KSR form coming from the English form of the name. Cf. YAP waqab.

L15: CHK kanuf, kanufe-(n) 'large, multicolored lizard (introduced to Chuuk by the Japanese to kill rats), l. of'; MRT kaluf 'l.'; PUL kólouf/kóloufá-(n) 'giant l. (introduced by Japanese)'; CRL ghaluuf, ghóluuf 'a black and green forest l., gecko'; STW kaluf 'l.'; WOL galifé 'kind of l.';

PUA *kanúda* 'l.'; YAP *galuef* 'monitor l.'; PAL *chelub* 'Indian monitor l.' We have here an evident chain of loans from PAL to YAP to the Chuukic languages.

L16: CHK *ki-im^weyim^w* 'house on lee platform of sailing canoe'; PUL *yá-yim^wayim^w* 'pandanus thatch house that fits on lee side of sailing canoe'; STW *ki-im^weim^w* 'hut on deep water sailing canoe'; WOL *ga-im^weim^we* 'sheltered area on a canoe'. These look like internal Chuukic loans. See PMC *um^wa, im^wa 'house'.

L17: CHK (*ki*-*p^wp^waaw*, -*p^wp^waawe-(n)*) 'papaya tree and fruit, p. of'; MRT *p^wawíp^waaw*; PUL *p^wáyip^wáy*; CRL *b^weibr^waay*; STW *p^waip^waay*; WOL *beibaaye*. This is an introduced plant in postcolonial times and these forms represent a set of loans. Cf. YAP *baabuay*; PAL *bobxi*.

L18: CHK *kóm^wu*, *kkóm^wu*, *kóm^wuti*, *kom^wuuti*, *kóm^wuu-(n)* 'sweet potato, s. p. of'; MRT *kam^wééti*; PUL *yóm^wuuti*, *kóm^wuuti*, *yóm^wuutiyá-(n)*; CRL *ghóm^wuuti*, *gham^wuuti*, *ghóm^wuuti*; STW *kóm^wuuti*, *komote*; WOL *gam^wuutiye*; YAP *kamoet*, *kamuut*. These represent a chain of earlier and later loans from CHM *kamuti* and Spanish *camote* from Nahuatl.

L19: CHK *konaak* 'dog'; PUL *kolaak*; CRL *ghulóogh*; CRN *gulaag*; WOL *gelaagu*. This is a loan from Chamorro *ga^wlagu*. Note that PUA *pinisi* is a loan from PAL *bilis*.

L20: CHK *maas*, *maase-(n)* 'march, marching, a dance with a marching step and moves based on close-order military drill, m. of'; PUL *maas*, *másá-(n)* 'a marching dance, d. of'; CRL *maas* 'men's marching dance'; WOL *mausi* 'a kind of dance'; YAP *maas* 'marching dance'; MRS *m^wahaj* 'to march, parade'. These forms are clearly loans, the Chuukic and YAP ones possibly from German and the MRS one (which does not involve a dance) from English.

L21: CHK *mayak*, *mayakú-(n)* 'cloth, c. of'; PUL *mégak*; CRL *mógoogh*, CRN *m^woyaag*; WOL *meyagu*, *meyagu*. These are loans via WOL from CHM *magagu* 'clothes, dress, shirt, yardage'.

L22: CHK *márá* 'yard or cleared ground around a house or meeting house'; KIR *marae* 'playground'. The KIR form is clearly a loan from SAM *malae* 'village green', and in the absence of any attested cognate forms in other MC languages, we must assume, for the present, that the CHK form is a loan from KIR. See PPN *malage* 'meeting place'.

L23: CHK *morop^w*, *morop^wu-(n)* 'coverlet, cover, sheet, c. of'; WOL *marubu* 'a ceremonial white woven skirt, a type of tribute consisting of woven skirts'. Cf. PAL *meleleh* 'cover with a blanket'; YAP *mathrow* 'to cover, a cover'.

L24: CHK *m^wéek*, *m^wékum^wék* 'arrowroot (*Tacca leontopetaloides*)'; PUL *m^wakom^wak*, CRL *móghomógh*; CRN *mógomóg*; WOL *m^wégum^wégú*; ULI *mógmög*; SNS *mogomogo*; PON *m^wekim^wék*; MOK *m^wokm^wék*; MRS *m^wakm^wék*; KSR *moknok*. This looks like a chain of loans. The KSR form with its initial *m* is clearly a loan. [The MRS form exhibits the a/é alternation expected of fully reduplicated *C₁C₂V₁₊₁ roots.]

L25: CHK *m^wiik*, *m^wíike-(n)*, #*m^wikke-(n)* 'pepper plant, hot pepper, p. of'; PUL *m^wm^wiik*, *(ya)-m^wm^wiik*, *(ya)-m^wm^wiiká-(n)* 'chili pepper, c. of'; CRL *m^wiigh*, *(a)-m^weigh* 'chili pepper'; CRN *(a)-m^wiig* 'chili pepper'; WOL *m^wm^wiige*, *m^wm^wiiga-(li)* 'hot pepper, p. of'. Apparently a loan from Chamorro *pika* 'burn with hot pepper', *donne* 'pika' 'hot pepper'.

L26: CHK *nichop^w* 'second finest grade of pandanus mat'; PON *lirop* 'mat'. Perhaps a loan here, from PUL to PON.

L27: CHK *niyoos*, *niyossu-(n)* 'image, statue, doll, picture, representation, i. of'; MRT *liyoss* 'i., d.'; PUL *liyos*, *liyosú-(n)* 's., i., d., weather charm'; CRL *liyos* 'religious i. or s.'; CRN *liyos* 'd., any s.'; STW *nios* 'd.'; WOL *liyoxse* 's., toy, shape, i.'; PUA *niyoso* 'd.'; MOK *lios* 'demon'. Said by Jackson (1991:101) to be a loan via CHM from Spanish [dios], which would account for the *s* in PUL and CRN instead of expected *h*.

L28: CHK *nóm^wo-chchek* 'name of Lamotrek (island and atoll) in the Central Carolines'; PUL *namo-ccék* (we expect *nóm^wo-ccék); CRL *lam^wo-tchegh* (we expect *lóm^wo-tchegh); CRN *nam^wo-tcheg* (we expect *nóm^wo-tcheg); WOL *lam^wo-ch-chegi* (<*lam^wo-li-ragi 'lagoon of the west'). If the derivation of the WOL form is correct, the other forms are clearly loans.

L29: ?CHK *nusu-paat* 'mud skipper fish' (lit. 'continual jump'); PUL *luhu-ppat* 'a kind of small, dark, leaping f.' (i.e., mud skipper); CRL *lusu-fat* 'sp. of inedible rock f.' Looks like internal CHK coinage and loan. See PMC *luTu 'to jump'.

L30: CHK *owuru-pik* ‘name of Eauripik (island and atoll), Central Carolines’; PUL *Yoru-pik* (we expect *yoorupik); WOL *yauru-pige*. The CHK and PUL forms look like loans from WOL. Cf. PCk *piike.

L31: CHK *paanaw* ‘name of the Palaw or Belaw Islands’; PUL *paalawu* (sic); CRL *palley*; WOL *belaau*; ULI *b^ralau*. These are a progression of loans. Cf. PAL *belau*.

L32: ?CHK *panaw* ‘a tree poisonous to the skin (*Semicarpus*)’; Cf. CHM *panao* ‘hard-wood tree good for lumber’; PAL *belau* ‘Guettarda tree’, *toget* ‘poisonous tree in mango family (*S. venenosa*)’. Cf. Chk *péné* ‘a tree (*Thespesia populnea*)’.

L33: CHK *pike-noot*, #*pike-nooch* ‘name of former Pikelot Island in Central Carolines, destroyed by a typhoon’; PUL *pikollof*; WOL *pige-n-noote* (<**pige-li-loota*). These forms appear to result from borrowing within the Chuukic languages.

L34: CHK *ppek* ‘shoot (with a gun), gun, firearm’, *pekk-i-(y)* ‘s. (s.o.) with a gun’; MRT *pakki-i*; PUL *pekk*, *pekk-i-(y)*; CRL *pákk*, *pákki-i-(y)*; STW *pákk-i-(y)*; WOL *pakki*, *pakk-i-(ye)*; ULI *pak* ‘gun’; Mrs *pakkey* ‘big gun, cannon’. These are apparently loans from Chamorro *paki* ‘gun, s. a gun’.

L35: CHK *p^wanaj*, *p^wanaje-(n)* ‘ilangilang tree (*Cananga odorata*), t. of’; PUL *p^walaj*. Cf. CRL *kájiláj* ‘C. *odorata*’; PAL *chiraj* ‘C. *odorata*'; CHM *alaŋilaj* ‘C. *odorata*'; PMP *kanarya* ‘C. *odorata*' (Blust 1984–85).

L36: CHK *p^wonnap* ‘name of Pulap Island’; MRT *p^wollap*; PUL *b^rollap*; WOL *bénnap*. The CHK form of the name appears to be a loan from PUL.

L37: CHK *p^wp^wu*, *p^wp^wuu* ‘areca or betel nut’; PUL *puw* (sic); CRL *p^wp^wu*; STW *p^wp^wu*; WOL *bbave*; PUA *pua* (sic); PON *p^wuu*; MOK *p^wu*. All are presumably loans directly or indirectly from YAP *bw* or PAL *bwuch*. Cf. POC **buaq* (Ross 1988) (KWA *bua*; SAA *pue* and ULA *pua*; LAK *bua*); PMP **buaq* ‘b. nut’ (Blust 1984–85).

L38: CHK *resium*, *resiume-(n)* ‘rainbow, r. of’ (god of rainbow was god of war); CRL *rásium*, CRN *rehium*; PUA *lakimu* (sic); PON *rakim* (sic) ‘god of war’; Mrs *rakyim* ‘to plunder, destroy and take everything, ravage, ransom, loot’; KSR (*le*)-*lækwem*, (*ne*)-*lækwem* ‘r.’ This appears to be a loanword in at least some of these languages; cf. Palau *orrekim* ‘r.’, YAP *ragim* ‘r.’ Marck’s (1994:311) reconstruction of PMC **rakiimi* is open to some question.

L39: CHK *saasaf* ‘soursop tree’; PUL *saasaf*, *saasap*; YAP *saawsaaaw*. These seem to be loans from English.

L40: CHK *seniwis* ‘name for the Marshall Islands’; WOL *saliwisi* ‘name for the Marshall Islands’; Mrs *jaléwéj* ‘Jaluit (island and atoll)’. The CHK and WOL forms are clearly loans from Mrs.

L41: CHK *séewúr*, *séewúrú-n* ‘plumeria, p. of’; MRT *séewúr*; PUL *yéewúr*; CRL *seyúr*, *séyúr*; STW *séeyúr*; WOL *sééru*; ULI *sour*. Cf. YAP *sowur*, from which this seems to be a loan.

L42: CHK *ténaaw*, *ténaawe-(n)* ‘mat, m. of’; MRT *télaw* (sic) ‘mat’; Mrs *teʃahwew* ‘sitting mat’; KSR *taləx* ‘a kind of mat’. There are problems here of the kind we might expect with loans.

L43: CHK *tonoya*, *tonoyaa-n* ‘circular throwing net, n. of’; CRL *téloóya* ‘throwing net’; CRN *telaiya* ‘throwing net’; WOL *talaaiyaa* ‘throwing net’. These are apparently loans from Chamorro *talaya* ‘circular or throwing net’.

L44: CHK *tipi-s*, *tipi-si-n* ‘error, mistake, fault, sin, his e.’; PUL *tipi-s*, *tipi-si-(n)* ‘sin, mistake, error, s. of’ (a loan from CHK); STW *tipi-s* ‘sin (not merely mistake)’; PON *diip*, *dipe* ‘sin, wrong-doing, his s.’, *dipe-(kelekel)*, *dip^re-(kelekel)* ‘to stumble, stub one’s toe’; MOK *dipi-j* ‘to trip on (s.t.)’; PNG *dep* ‘stumble and fall’; Mrs *tip-je^k* ‘stumble, slip, trip’, *tipi-j* ‘to trip on (s.t.)’; KSR *tipi-s* ‘bad ugly’. We seem to have a chain of loans from Mrs in the wake of Protestant missionary activity that began in the Marshall Islands and spread westward from there. Cf. WOL *tapissi* ‘to slip, fall off, come off’, (*ge*)-*tapissi-(i)* ‘let it slip’.

L45: CHK *tuum^wu* ‘to dye, do dying (any color)’; CRL *tuum^wu* ‘locally made dye of any color used to color cloth’; WOL *tum^wu* ‘to dye, color cloth or hair, color with a dye’. Loan from CHM *tumu* ‘coloring, dye’.

L46: CHK *túúr, túrú-(n)* ‘loom for weaving, l. of’, *túrú-ni* ‘weave it’, *túr* ‘to weave on a l.’; PUL *teér, téru-(n)*; CRL *teér* ‘l.’, *ttér* ‘weave on a l.’; WOL *téérní, téru-(li)* ‘l., l. of’, *téru-nyú-(ú)* ‘weave it’; PUA *taalú, talú-*. This is presumably a loan from a Philippine source. Cf. UAN *tenun ‘to weave’.

L47: CHK *weeku, weekuu-(n)* ‘ironwood tree (*Casuarina equisetifolia*), l. of’; CRL *weighu, weeghu*; CRN *weegu*. Possible loans from YAP *walguw* ‘a type of tree’. Cf. PAL *dort* ‘ironwood tree’.

L48: CHK *weneyá* ‘old name of Woleai (island and atoll)’, *woneyaye* (from English form of name); MRT *woleyaye* (from English form?); PUL *weniyay* (from English form?); CRL *woleyuay* (from English form?); CRN *weniya*; WOL *weleyaa*. These appear to be internal Chuukic loans.

L49: CHK *wochááp* ‘dragonfly’; PUL *woRááp, woRáápi-(n)*; CRL *oshááp, osháápi-(l)*; WOL *goshaape*; PUA *kosappi*. The CRL, WOL, and PUA forms appear to be corruptions of the CHK and PUL forms, which can be analyzed as deriving from *koca-kapi meaning ‘butt-end-eating’, reference being to the way dragonflies appear when flying in mating pairs. A reconstruction of PCk *kocakapi is questionable. See PMC *koca, oca ‘eat raw food’, PMc *kapi ‘bottom, butt end’.

L50: CHK *wores* ‘wash the face’; PUL *wórdh* ‘to w. (as the f. in the morning)’, *wóráhi-i-(y)* ‘w. it’; CRL *urás, urás-i(ló)* ‘w. one’s f.’, *(o)-urási-i-(y)* ‘w. (s.o., as a child in the morning)’. Is this a loan from Pidgin English?

L51: CRL *ataob^bey* ‘name of Tobi Island, Western Carolines’; CRN *gatogobwey*; WOL *gatogobei*; PUA *katokoxdei*; SNS *katokofei*; TBI *gatogob^bey*. These forms appear to be a chain of loans.

L52: CRL *b^báila, b^beila* ‘sheath (for a knife)’; WOL *baileau*. Loan from CHAM *baina* ‘sheath, scabbard’.

L53: CRL *gaaghu* ‘to be lazy’; WOL *gaaguu*. Loan from CHM *gago* ‘lazy’.

L54: CRL *laash* ‘ironwood tree’; WOL *laashi, lashi* ‘pine tree’; ULI *laach* ‘pine-like t.’ Cf. YAP *laach, naech*, said to be borrowed from ULI; CHM *ladda, lahda* ‘*Morinda citrifolia*’; PAL *iyas* ‘a type of pine t.’ A possible loan from CHM.

L55: CRL *maaghuf, móóghuf* ‘be happy, pleased’; CRN *maagof* ‘be h., p.’ WOL *maagufe* ‘be active, encouraged, animated’. This is a loan from CHM *magof* ‘h., gay, glad, delight’.

L56: ? CRL *óghótooláy* and CRN *ógátoolek* ‘large, hardwood tree (*Eugenia palumbis*)’; WOL *gatoolaji* ‘a kind of tree’. Cf. PAL *kesiil* ‘Eugenia tree’.

L57: CRL *p^b“p”iuughas* ‘uncooked rice, rice grain’; WOL *peruaasi* ‘rice’; ULI *pérás* ‘rice’. The WOL and ULI forms are apparent loans from PAL *beras* ‘rice’; and the CRL form is a loan from CHM *pugas* ‘uncooked rice’. See PAN *beRas (Blust 1984–85).

L58: CRL *sonjoshól* ‘name of Sonsorol Island, Western Carolines’; CRN *sanoRól*; WOL *sonjoshalo*; PUA *dojasanú*. Cf. YAP *sojchol*. The CRN form is clearly a loan.

L59: KIR *maao* ‘nearly finished (as a shower), be raining gently’; *(ka)-maao-(a)* ‘to wait upon (the rain) until the shower is quite over’; PPN *mao ‘cease raining’. Note that the KIR forms may be loans from a PN source, e.g., SAM *maona* ‘let up, abate, calm down (of rain, storm)’.

L60: KIR *mim* ‘to urinate’; An apparent loan from a PN source; cf. SAM *muumii*; TON *mimi*.

L61: KIR *yae* ‘satiated’; KSR *yai* ‘feel satisfied (especially after a good meal)’. The KSR form, where we would expect *ywe, is an apparent loan from KIR.

L62: KSR *es* ‘papaya’; ROT *esu* ‘papaya’; SAM *esi* ‘papaya’. Cf. TON *lesi* ‘papaya’. Other than in KSR, cognates of this form are not attested in Micronesian languages. These are clearly products of borrowing.

L63: MOK *jikalue* ‘coconut toddy’; Mrs *hekarew* ‘coconut sap, toddy’; KIR *te-karewe* ‘fresh coconut sap’ (lit. ‘the sweet’); KSR *sakam* ‘coconut sap’. The MOK and Mrs forms are loans from KIR (incorporating the KIR prefixed article), and the KSR form is in turn a loan from Mrs (as indicated by the initial KSR *s* from Mrs.).

L64: ? MOK *jor, jorɔ, jorɔ-(n)* ‘handle, its h., h. of’; Mrs *ji^be-* ‘handle’. The MOK form could be a loan from Mrs.

L65: MOK *jop"ro* 'constellation Pleiades'; Mrs *jeb"raw* 'star eta Taurus (Pleiades)'; KSR *safuro* 'Pleiades' (Lutke) (Bender et al. 1984). The MOK and KSR forms are likely loans from Mrs.

L66: MOK *jorom* 'lightning'; Mrs *jar"en*; KSR *særøm*. The MOK and KSR forms are likely loans from Mrs.

L67: MOK *kidaak* 'Allophylus tree'; PNG *kidaak*; Mrs *kitahak*. Cf. KSR *kirak* 'kind of tree'. We seem to be dealing with loans here, probably from Mrs.

L68: MOK *magij* 'gone sour (as of spoiled liquid)'; Mrs *magij* 'old and s. fermented coconut sap', *ji-magig* 'fermented coconut toddy, s. toddy'; KIR *magij* 'drunk, intoxicated', (*te*)-*ka-majij* 'fermented or intoxicating coconut sap', *ka-majij* 'intoxicating'. The MOK and Mrs forms are loans from the KIR form (the second Mrs form incorporating the KIR prefixed article). See PMC **manjini* for cognates of KIR *magij*.

L69: MOK *p"eyp"ey*, *p"eyp"ei-(n)* 'tuna, t. of'; PNG *p"eyp"ey* 'tuna'; Mrs *b"eyb"ey* 'tuna'. These could be loans from Mrs into MOK and PNG. Cf. WOL *baüre* 'kind of fish that looks like a barracuda'; KIR (*te*)-*baibai* 'a fish', *baib"o* 'a fish'.

L70: Mrs *jeb"ey* 'oar, paddle, rudder, steering wheel'; KIR (*te*)-*b"ee* 'oar, steering oar, rudder'; SAM *fœ* 'oar, paddle'; PPN **fohe*; PEO **voze*. The Mrs form is clearly a loan from KIR, incorporating the KIR noun-marking prefix within it; and the KIR form is a loan from SAM.

L71: Mrs *jib"ab"b"ayiy* 'a taro variety (*Colocasia*'); KIR (*te*)-*b"ab"ai* 'Colocasia taro'. The Mrs form may be a loan from KIR, incorporating the prefixed KIR noun marker and exhibiting the final vowel of the KIR form, but see Bender (1981) for an alternative explanation. Cf. CHM *baba* 'type of swamp taro'.

L72: Mrs *téptép* 'chest, trunk, footlocker'; KSR *taptap* 'suitcase, trunk, chest, coffin'. The KSR form could well be a loan from Mrs, but see YAP *dapdep* 'storage trunk'. Cf. KIR *rabi* 'be curved laterally, indented as a coast, bellying as a sail', *rabirabi* 'wide laterally as a coconut shell bottle'.

L73: Mrs *yanyén* 'to bail (as a canoe)'; KIR *anan* (sic) (**annan* < **aniani*); KSR *enyen*. We interpret the Mrs and KSR forms as loans from KIR and the KIR form as a back formation from KIR (*te*)-*anima* 'bailer'. Cf. PEO * [cz]aRu-m 'b. out' (Geraghty 1990).

L74: MRT *malék* 'chicken'; PUL *malük*; STW *manük*; CRL *malúgh*; WOL *malúge*; ULI *máleg*; PON *malek*. These are loans from CHM *mannok* 'chicken'.

L75: MRT *m"uso* 'worm'; PUL *m"óho* 'w.'; CRL *m"usó* 'intestinal w.' Cf. PMC **m"awaata*, *m"ata-*. Could well be a chain of loans.

L76: PNG *peded* 'fall'; KSR *patat* 'fall, drop'. In the absence of reported cognates from other languages, we must consider one of these a possible loan from the other.

L77: PON *ini* 'to carry two bundles of things with a pole across the shoulder', *inie* 'to c. (s.t.) with a pole'; MOK *inani* (sic) 'yoke or pole for carrying'; PNG *ini*, *iniani* 'yoke or pole for carrying'; Mrs *yinéynéy* 'c. on the shoulders, bear a burden', *yineye-k* 'c. (s.t.) on the shoulders'; KSR *ena* 'pole, yoke'. There are problems here, and we may be dealing with a chain of loans. CHK *eyi-ni-wow* 'pole for carrying' does not belong in this set.

L78: PON *kidi* 'dog'; Mrs *kidiw*; KIR (*te*)-*kiri*. The PON form is evidently a loan from KIR; the Mrs and KIR forms can be understood as loans from a Polynesian source (cf. PPN **kulii*; FIU *koli*). Cf. KWA *ku'i*. Cf. also SAA *'usu*.

L79: PON *kitik* 'rat, mouse'; MOK *kije-sik* 'small animal, lizard, mouse', *kije-sik* (*winan*) 'rat'; Mrs *kij-dik* 'mouse, rat' (lit. 'little louse'); KSR *kisrik* 'cat, mouse, rat'. The PON and KSR forms look like loans from Mrs; the MOK form could be either cognate with or a loan from Mrs. Cf. LAK *kusuke* 'rat'. Cf. Also PCk **keci* 'rat'.

L80: PON *m"ut*, *m"uti-(n)* 'counter for heaps or piles'; Mrs *m"iwij* 'pile up plant materials'. The PON form is a loan from Mrs or the Mrs form a loan from PON.

L81: ? PON *sooj* 'to measure, survey, a measurement'; MOK *jonjon* 'to measure', *jon* 'to measure (s.t.)'; Mrs *jer"jer"* 'to measure, compare size', *jer"u-* 'size (of s.t.)'. The long vowel of PON presents a problem. We may have loans into MOK and PON from Mrs here.

L82: PUA *lēpakuú* ‘capable, able’; KIR *rakakau* ‘skillfull, dextrous, adept’. The PUA form appears to be a direct loan from the KIR. (KIR men were recruited as boat crew by the late nineteenth-century traders in the Carolines.)

L83: PUL *hōjōogo* ‘a reef fish’; CRL *sōjoōjo* ‘sp. of edible reef fish’. Note that WOL *sōjoōje* ‘a kind of fish’ would appear to be a loan from a CRL-like source, since we would expect it to be **sōjoōjo* if it were an inherited form.

L84: PUL *saraal* ‘name of Sorol Island, Western Carolines’; WOL *soróóle*. The PUL form is clearly a loan.

L85: PUL *yásiikaa*, *yásiikaa-(n)* ‘salt, to salt, s. of’, *yásiikáá-ni* ‘to s. or season (s.t.)’; CRL *asiigha* and CRN *asiig* ‘s.’; STW *yassika* ‘s.’; WOL *gasügaa* ‘s.’ These are apparent loans from CHM *asiga*.

L86: STW *sólop* ‘land, earth’; WOL *salope*, *talope* (Bender et al. 1984) ‘earth, soil’; ULI *talop*, *talop* ‘earth’ (Bender et al. 1984); PUA *(i)-danopa* ‘earth, ground, world’. The variants and the *d* of the PUA form suggest that this is a loan from YAP *danoop* ‘world, earth, native land’. Cf. PMC **tano* ‘ground, low’.

L87: STW *yab^wiy* ‘a plant’; WOL *gabiye* ‘a plant (*Clerodendrum inerme*)’; ULI *hab^wi*; SNS *habiya*. Cf. CHK *ap^wech* ‘a plant’ (*Clerodendrum inerme*)’. Appears to be a loan into the West Chuukic languages from YAP *gabuy* ‘a plant’ (cf. YAP *gabuy* ‘pepper leaf for betel chewing’; PAL *keb^wy* ‘pepper leaf for betel chewing’). Cf. PAN **apuR*. ‘betel chew’ (Blust 1984–85).

L88: WOL *kkeele*, *kkele*, *kkili* ‘a tree (*Terminalia catappa*)’; MRS *kkéj* [yékkéj, kékéj] ‘a tree (*Terminalia litorali*)’. Cf. PON *keema* ‘*Terminalia carolinensis*’, *dip^wɔp^wo* ‘*Terminalia catappa*’. These look like loans, if anything. See also PCk **kaata*, *kaataata* ‘a tree (*Terminalia catappa*)’.

L89: WOL *reebe*, *reba-* ‘mustache, whiskers’; ULI *reb^w-*; PUA *leep^we*, *lep^we-* ‘beard, mustache, wattles (of a chicken)’, *lep^welep^we* ‘whiskers’. Loan from YAP *roob*.

L90: WOL *sifi*, *sifi-* ‘woman’s skirt, grass skirt’, *sifisifi* ‘g. s., wear a g. s.’; PUA *didididi* ‘g. s., to wear a g. s.’ This is an apparent loan from YAP *süf, füf* ‘type of dancing skirt’.

L91: WOL *tiipi*, *tipi-* ‘big steering paddle’; YAP *thiip* ‘steering oar’. Cf. PEO **sua* ‘scull’ (FIJ *sua* and PPN *sua* ‘scull’, MTA *sua* ‘paddle’ [Geraghty 1983:140–141]).
